PF DC DRIVE 480VAC 412A IP20

Representative Photo Only
(actual product may vary based on configuration selections)

- Drive design incorporates proven noise and voltage suppression characteristics, reducing installation concerns for noise-sensitive environments
- Pull-apart control terminal blocks allow for easy wiring and quick disconnect
- The flexible feedback and communication options with in the PowerFlex DC drive assure an effective integration solution
- DC Tachometer and encoder feedback capabilities are embedded into the control circuitry as a standard feature, saving space and providing additional functionality
- The extensive I/O provides installation flexibility including up to 12 digital inputs and outputs as well as 3 analogue inputs and 4 outputs

SPECIFICATIONS

Product Series PowerFlex DC
