Product Overview

The Bulletin 140UT-D Molded Case Circuit Breaker (MCCB) UL489 and IEC 60947-2 Listed circuit breaker for global applications. The current-limiting circuit breaker provides fixed short-circuit and overcurrent protection and offers high interrupting ratings for 2- and 3-pole devices. These are also suitable for backfeeding.

Accessories are designed to be field installed. The compact busbars and feeder blocks reduce wiring errors and installation cost. Connection modules for 100-C contactors simplify wiring and can reduce the number of DIN Rails required, reducing panel space even further.
